Terry

Can you clarify what your cell number is? The contact info says 222 474-747-54.?

Gents,

Attached is each of your contact information.

As I understand it, EPA personnel will arrive in Silverton early Monday afternoon, have a coordination/safety meeting and commence sampling at A68 sometime around 3:30 – 4:00.

There are 8 sites in the Mayflower area where SGC wishes to collect splits or dupes and 5 sites in the Sunnyside Basin that are located on SGC patented claims. SGC wishes to accompany and collect splits or dupes at those sites as well.

Thanks to both of you for your efforts and willingness to coordinate this work.

Pat
